

MAINTENANCE CONTRACTS

SECURE

START & DRIVE

The Renault Trucks Secure Contracts provide increased protection for your vehicle.

An ideal option for operators who control their own maintenance, our 'Secure' contracts provide you with an annual safety inspection at any Renault Truck workshop which ensure that your vehicle meets our excellent safety standards.

Purchasing these contracts also entitle you to roadside assistance for any warrantable failures and provide you with an extended period of protection after your warranty has come to an end.

Taking your vehicle for inspection allows our qualified Renault Trucks technicians to spot potential problems before they occur - meaning they are often much less expensive to rectify.

SECURE SERVICE CONTRACTS – KEY BENEFITS

- Roadside assistance in the event of a warrantable failure
- Annual safety inspection at a Renault workshop
- Extended warranty period

Would you prefer to be covered for preventive maintenance? - try **Reference**

Talk to your local dealer or visit renault-trucks.co.uk

Please turn to the next page to see everything that's included in our Secure Service Contracts.

On both the Secure Standard Contract and the Secure Maxi Contract the following are checked on an annual basis:

ELECTRONIC CHECK

- Dashboard instruments, warning lights and indicator lamps operation
- Lighting condition
- Fixing condition and connection of batteries
- Master switch operation
- Fault codes, multifunction information display

BRAKE CHECK

- Braking system
- Brake pads wear, brake lever
- Parking brake operation

DRIVELINE CHECK

- Engine noise and smoke emission
- Radiator cores cleanliness
- Engine for leakage
- Intake circuit for leakage
- Axles for leakage
- Gearbox for leakage
- Clutch wear
- Transmission play
- Belts and tensioners condition

SUSPENSIONS / WHEELS CHECK

- Tyre wear and pressure
- Pneumatic suspension and remote control operation
- Air suspensions
- Shock absorbers mounting and condition

AXLE / STEERING / CHASSIS CHECK

- General condition of wiring fixings support
- Springs, pads and stabilizer bars condition
- Steering mechanism and front hub bearing
- Chassis frame and cross-members conditions

CAB CHECK

- Locks and remote control operation
- General condition of cab
- Windscreen and rear-view mirrors condition
- Front bumper, license plates, radiator grill and lights condition
- Rear underrun bar and bumpers
- Step wells, side skirts and mud flaps condition
- Seat belts, horn, screen wipers and washers operation
- Air conditioning and heating operation
- Wiper blades condition
- Cab mounting, rotation and unlocking system operation

OTHER CHECKS

- Water presence in compressed air tanks by bleeding
- Fuel and AdBlue tanks for leakage
- General condition and mounting of exhaust line system
- Hydraulic retarder for leakage
- Power take off for leakage
- Presence and mounting of noise shields
- Hydraulic circuit and gear shift for leakage
- Hoses, ducts and pipes condition
- Level of screen wash, clutch fluid, coolant, engine and steering, battery electrolyte
- Chassis, fifth wheel or towing hook greasing

With the Secure Standard Contract, the following items are covered for repair under the contract:

DRIVELINE

- Engine gaskets
- Cylinder block, crankcase, connecting rods and bearings crankshaft, pistons, flywheel, damper, cylinder head, distribution, valves, camshaft, manifold, breather, turbo charger
- Water pump – Thermostat
- Water/oil heat exchanger – Engine fan control
- Engine oil pump, oil filter housing and gauge
- Injection pump – Feed pump – Fuel filter housing
- Electronic control unit
- Injectors and pipes
- Air compressor
- Gearbox: gearbox housing, synchronizers, pinions, shafts, relays, oil pump – sensors
- Power take-off
- Shafts and gears of power take-off
- Transfer box
- Rear axle – Hubs reduction – Differential – Shafts
- Transmissions
- Electrical/hydraulic retarder – Exhaust brake

Above the Secure Standard Contract, Renault Trucks also offer a Secure Maxi Contract which covers everything Secure Standard does and the following additional items:

- Battery box – Tool locker
- Spare wheel carrier
- Towing hook and coupling
- Complete chassis – Lift axle system
- Cab structure
- Doors, door handles, locks (except barrel), hinges
- Windows motor – Engine trim and defrosting of mirrors
- Fan and intakes
- Heating – Demisting – Standalone heating
- Air conditioning – Climate control
- Dashboard – Consoles – Coat hanger – Storage
- Sun visor
- Seat belts
- Fridge
- Seats – Bunk
- Mounting, suspensions and tilt of cab
- Master switch
- Wiring harness and fixings
- All ECU's and switches – Sensors – Immobilizer
- Relays – Horn
- Signaling lights
- Wash/wipe mechanism and control
- Radio and speakers
- Dashboard instruments – Tachograph
- Controls – Stalk switch
- Warning lights
- Fuel circuit – Pipes – Fuel and AdBlue tanks – Gauges
- Water coolant circuit – Radiators – Exchangers – Hoses – Expansion tank.
- Air circuit – Fan – Air dryer – Intercooler
- Oil circuit
- Vacuum pump
- Alternator – Starter motor – Voltage regulator
- Clutch fork – Clutch servo
- Power take off control
- Clutch, gearbox, suspensions control
- Steering wheel, housing and connecting rods
- Engine stop control
- Suspensions – Shock absorbers – Cushions – Bars
- Engine and gearbox suspension mounts*
- Power steering – Hydraulic pump*

General terms and conditions apply.
